English

Kannada

## PROFILE

Seeking a challenging position in software development that utilizes my skills effectively thereby helping me boost my knowledge to expertise in working. I would like to implement my innovative ideas, skills and creatively for accomplishing the projects.

## ACADEMIC PROJECT

### "PIANT DISEASE IDENTIFICATION BASED ON ARTIFICIAL INTELLIGENCE "

The project leverages AI to accurately diagnose plant diseases through Image Analysis. By utilizing Machine Learning Algorithms, the system processes and identifies the diseases from plant leaf images providing quick and reliable results. The project is developed using Python for AI models, Java for the application interface, and HTML for the Web Framework, with a cloud-based database for storage and retrieval of data. This innovative solution helps in early disease detection ensuring better crop health and yield.

## CERTIFICATE

Frontend Development course has been successfully completed in  
**Sadhana IT Institute, Rajaji Nagar, Bangalore**

## INTERESTS

Watching Series

Listening to Music

Cooking
